

POWERFLEET®

FORKLIFT TRAINING SYSTEMS

# LCD-601 Expert System

## Lift Truck Fleet Management with Comprehensive Telematics.

The **LCD-601** and Powerfleet Expert offers a comprehensive forklift fleet management system to achieve optimization across your operations. This comprehensive telematics solution tracks and reports on vehicle and operator utilization and data to increase productivity across your operations. With the LCD 601 and Powerfleet Expert, you can effectively

simplify asset maintenance management, optimize labor resources and turn actionable data into results to reduce costs, efficiently maintain OSHA compliance with intuitive automated checklists, decrease damage with forklift impact and speed sensors, and beat the bottom line.

### FEATURES

RUGGED CONSTRUCTION FOR  
HARSH AREAS

EASILY INSTALLS ON  
ANY VEHICLE

- Comprehensive data collection for in-depth analysis through Powerfleet Infomatics software
- Provides electronic safety checklists via built-in color display
- Optional sensor connections (impact, speed, seat belt, seat switch, load sensor, fault sensor)
- Device starts and turns on ignition and starter via relays (numeric code or RFID card)
- Language support for English, Spanish

## PROBLEMS SOLVED

### UNPRODUCTIVE OPERATORS

Movement and load tracking

### OSHA COMPLIANCE

Automated safety checklists

### FORKLIFT DAMAGE

Impact and speed sensing

### UNAUTHORIZED OPERATORS

RFID card or numeric code required for access

## Infomatics Features

- Capture and display all listed events as configured
- Display list of all authorized operators for a vehicle
- Display list and status of all active vehicles
- Create, edit and display safety checklists for vehicles
- Create, configure and display impact detection and control parameters for vehicles
- Configure and display sensors and triggers for vehicle events such as seat and seatbelt switches, speed, oil sensors load sensors, and timeouts
- Define, configure and display access control, impact, sensors, speed, checklists, shifts, hour meters, maintenance and other operational parameters for each vehicle
- Create and configure new vehicle operators and display list of all authorized vehicle operators
